IMPRESSA
IF YOU LOVE COFFEE

Features

Design

The fine materials used in the IMPRESSA X5 convey superior quality to the touch and the eyes.

One Touch Cappuccino

A single push of a button produces perfect coffees such as cappuccino or latte macchiato without shifting around cups. The revolutionary One Touch Cappuccino Frother makes this possible.

Silent Package

Thanks to the Silent Package your IMPRESSA is always as quiet as can be, never disturbing any of your meetings. It is ideally suited for the IMPRESSA X5 and the cup warmer.

Operation / Rotary Switch

Simply turn and press to safely "navigate" through all the operating and programming steps. At the same time the text and graphics display gives you clear feedback on all your actions.
