**IMPRESSA**  
IF YOU LOVE COFFEE

## Features

### Coffee specialities

More than twenty different specialities can be programmed to suit your personal taste. Ten of them can be assigned their own keys. The machine makes popular coffees such as cappuccino or latte macchiato without needing to shift cups around.

### User-friendliness

The display dialog system and the clearly defined product keys make the IMPRESSA X9 an absolute star of self-service areas. The coffee dispenser is high-adjustable and is easy to remove for cleaning.

Integrated rinsing, cleaning and decalcifying programs turn maintenance into child's play.

### Design

With its serene and unmistakable design, the IMPRESSA X9 adds an elegant touch to any atmosphere.

### 2 grinders

Thanks to the two high-performance conical grinders, you can assign your personal blend from both of the grinders to the product keys. The separate bean tanks have an elegant, semi-transparent design and hold 650 g each. The active bean level monitoring system lets you know if a bean tank is nearly empty and when to fill it up.
